

osCommerce Integration Document

Introduction

This guide will show you how to configure PayUmoney as your payment processor on osCommerce for payments through Credit Card, Debit Card, Net banking and Saved Cards.

Prerequisites

To Integrate PayUmoney payment gateway, you must:

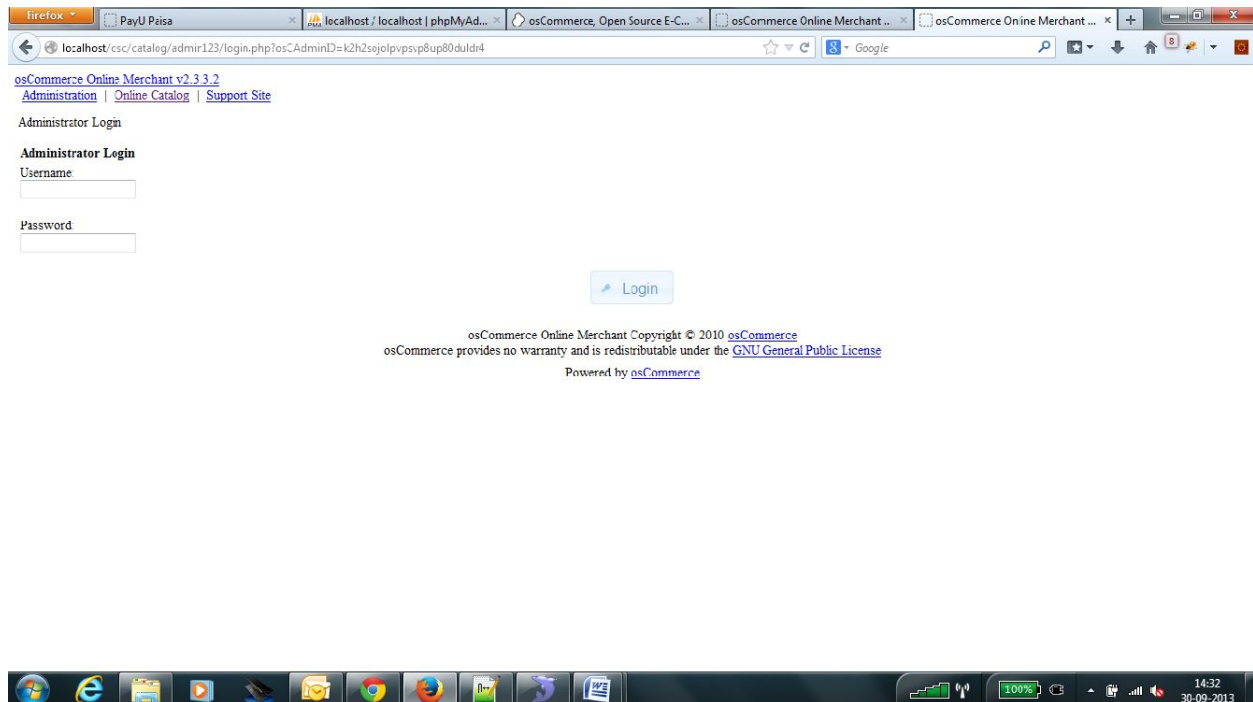

1. Have a merchant account with PayUmoney. If haven't already registered, please visit <https://www.payumoney.com/> and then register as a merchant.
2. Know your Salt & Key. These are available on the dashboard. If you already have a PayUmoney merchant account, please login at <https://www.payumoney.com/> and you will be able to retrieve your salt and key from the "Account details" tab.

Steps to Integrate

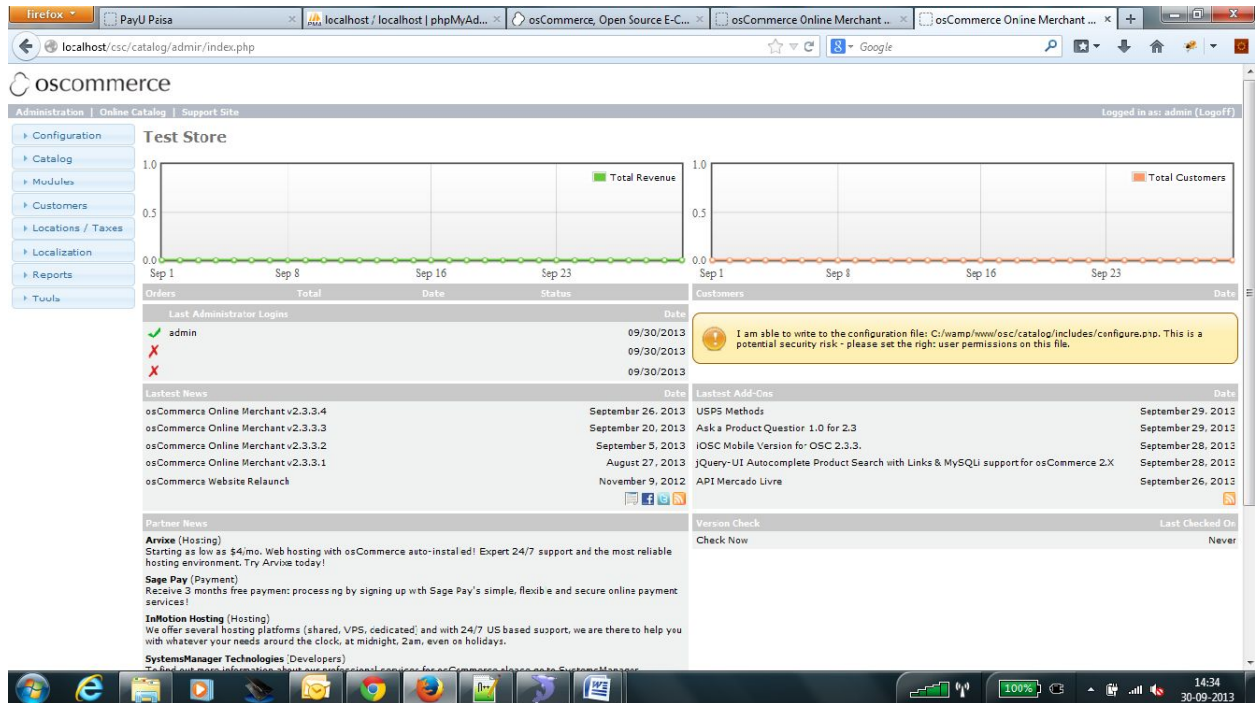

- 1) Copy the “**Catalog**” folder from the PayuMoney integration kit and merge it with “Catalog” folder of OSCommerce folder on your root directory.(Accessible from your Web Hosting Control Panel, eg Cpanel).

[In other words, copy the end files/folders in the integration kit downloaded according to the files and folder structure in your OSCommerce module in your root directory]

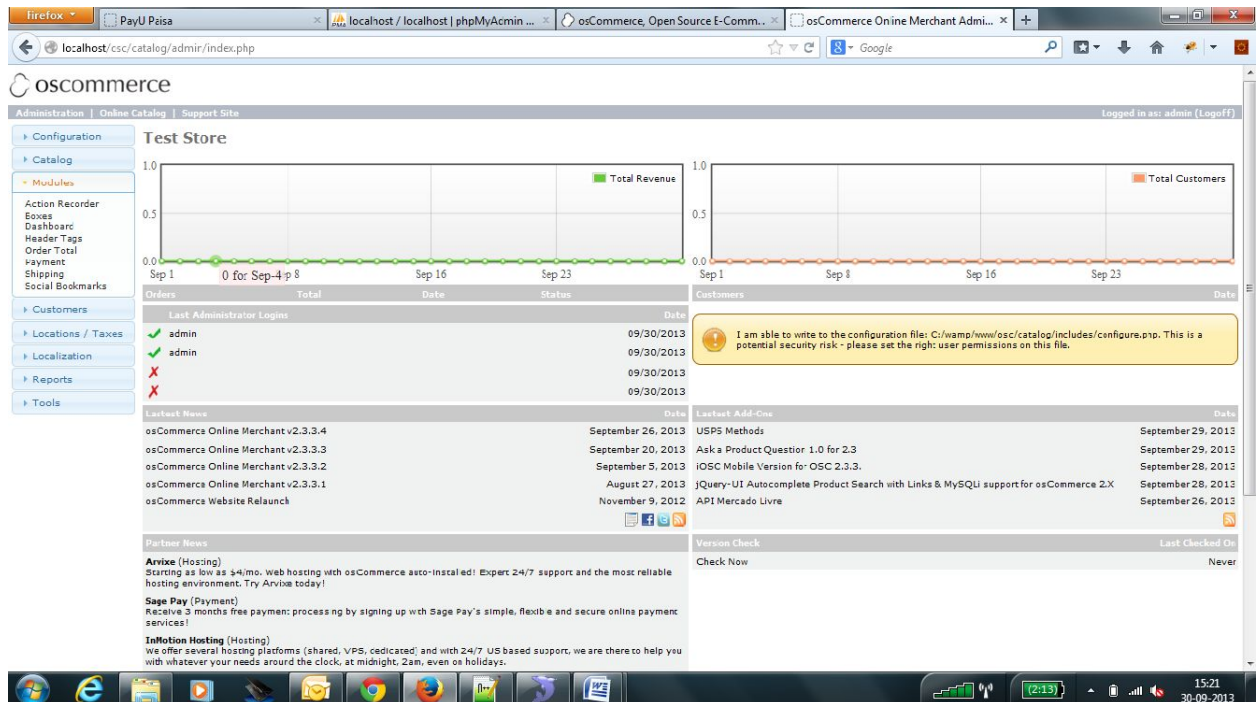

- 2) Login to your **osCommerce admin panel**.

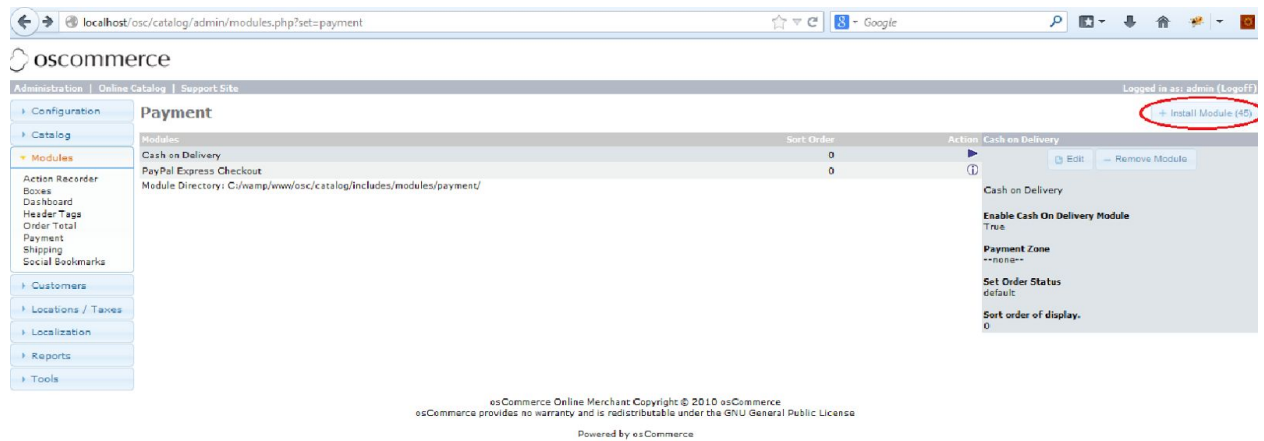

3) After login, you'll the following page will be displayed to you.

4) From Left hand side panel, select **Modules**

5) Select **Install Module** option:

The screenshot shows the osCommerce admin interface. The left sidebar contains a menu with 'Modules' highlighted. The main content area is titled 'Payment' and shows a table of installed modules. The 'Cash on Delivery' module is selected, and its configuration is displayed on the right. The 'Install Module' link is circled in red.

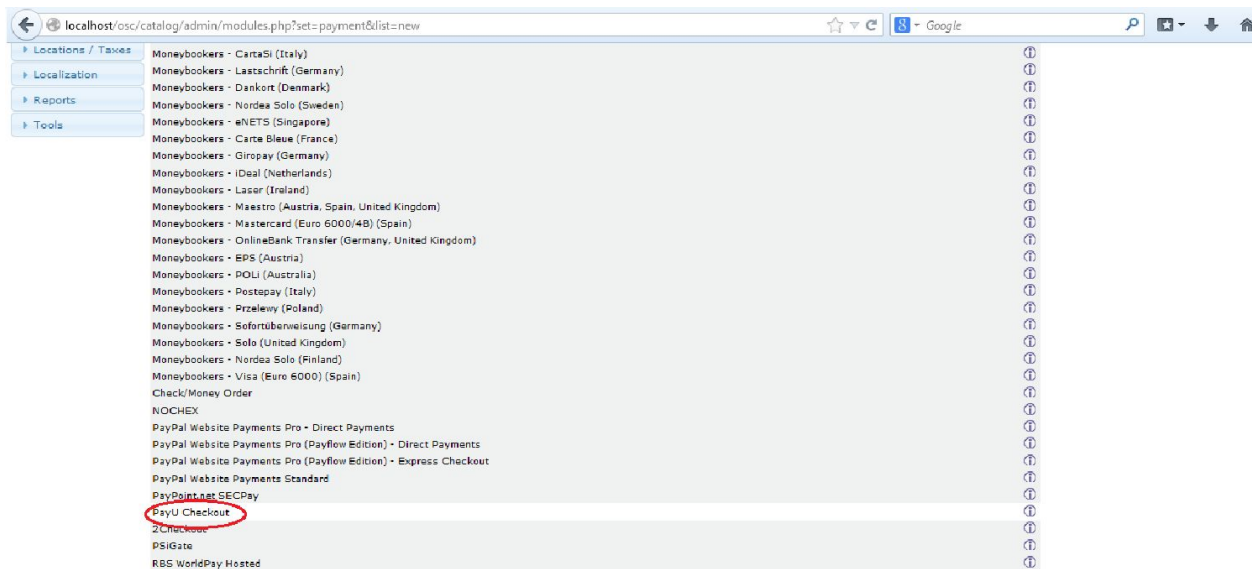

Modules	Sort Order	Action: Cash on Delivery
Cash on Delivery	0	Edit Remove Module
PayPal Express Checkout	0	Install Module (45)

Module Directory: C:/wamp/www/oscommerce/catalog/includes/modules/payment/

Configuration options for Cash on Delivery:

- Enable Cash On Delivery Module: True
- Payment Zone: --none--
- Set Order Status: default
- Sort order of display: 0

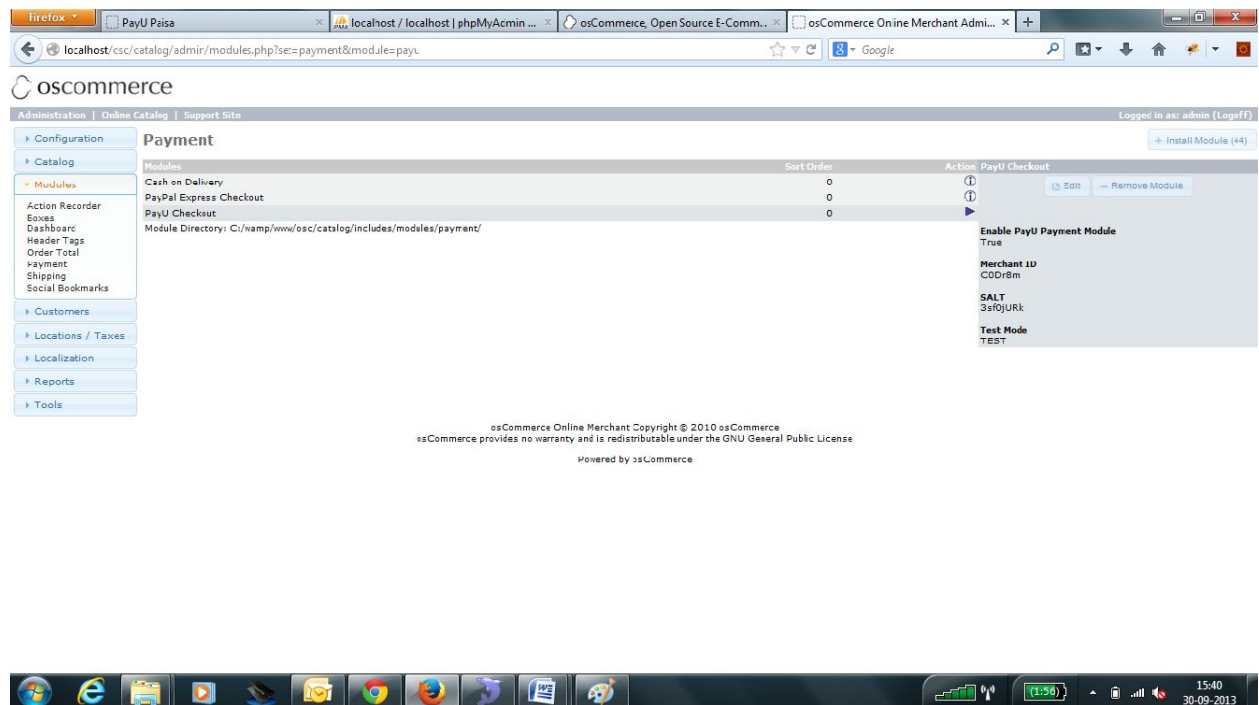

6) Select **PayU Checkout** from the list.

The screenshot shows the osCommerce admin interface with the 'Payment' module list. The 'PayU Checkout' module is circled in red.

Module Name	Sort Order
Moneybookers - CartaSi (Italy)	1
Moneybookers - Laatschrift (Germany)	1
Moneybookers - Dankort (Denmark)	1
Moneybookers - Nordea Solo (Sweden)	1
Moneybookers - eNETS (Singapore)	1
Moneybookers - Carte Bleue (France)	1
Moneybookers - GiroPay (Germany)	1
Moneybookers - iDeal (Netherlands)	1
Moneybookers - Laser (Ireland)	1
Moneybookers - Maestro (Austria, Spain, United Kingdom)	1
Moneybookers - Mastercard (Euro 6000/4B) (Spain)	1
Moneybookers - OnlineBank Transfer (Germany, United Kingdom)	1
Moneybookers - EPS (Austria)	1
Moneybookers - POLI (Australia)	1
Moneybookers - Postapay (Italy)	1
Moneybookers - Przelewy (Poland)	1
Moneybookers - Sofortüberweisung (Germany)	1

2Checkout	1
PSIGate	1
RBS WorldPay Hosted	1

- 7) Click on **“Edit”** and fill the details as mentioned below. Enter the **Key** and **salt**. The values of key and salt are available in your Payumoney merchant dashboard. (Note: The Merchant Id shown here is your Key available from the payumoney panel)

The screenshot shows the osCommerce Online Merchant Admin interface. The browser address bar displays the URL: localhost/csc/catalog/admin/modules.php?se=payment&module=payu. The page title is "oscommerce". The navigation menu on the left includes Configuration, Catalog, Modules, Customers, Locations / Taxes, Localization, Reports, and Tools. The main content area is titled "Payment" and shows a table of modules:

Modules	Sort Order	Action
Cash on Delivery	0	ⓘ
PayPal Express Checkout	0	ⓘ
PayU Checkout	0	▶

Below the table, the module directory is listed as: C:/wamp/www/osc/catalog/includes/modules/payment/. To the right of the table, there is a section for "PayU Checkout" configuration:

- Enable PayU Payment Module:** True
- Merchant ID:** C0D08m
- SALT:** 3sf0JURk
- Test Mode:** TEST

At the bottom of the page, there is a copyright notice: "osCommerce Online Merchant Copyright © 2010 osCommerce. osCommerce provides no warranty and is redistributable under the GNU General Public License. Powered by osCommerce". The Windows taskbar at the bottom shows the time as 15:40 on 30-09-2013.

- 8) Click on **Save**. You should now be able to make a transaction.

Testing

If you want to test the payment first, you should obtain test values for "Merchant Key" and "Salt" (not production) and enable checkbox "Enable PayU Test mode)".

Test MID: 4934580

Test Key: rjQUPktU

Test Salt: e5ilg1jwi8

Test Authorization Header: y8tNAC1Ar0Sd8xAHGjZ817UGto5jt37zLJSX/NHK3ok=

Below are the test card details for doing a test transaction in the testing mode. You may use the following card details for testing:

Card Name: Any Name

Card Number: 5123 4567 8901 2346 CVV: 123

Expiry Date: 12/2017
