osCommerce Integration Document

Introduction

This guide will show you how to configure PayUmoney as your payment processor on

osCommerce for payments through Credit Card, Debit Card, Net banking and Saved Cards.

Prerequisites

To Integrate PayUmoney payment gateway, you must:

1. Have a merchant account with PayUmoney. If haven't already registered, please visit
https://www.payumoney.com/ and then register as a merchant.

2. Know your Salt & Key. These are available on the dashboard. If you already have a PayUmoney
merchant account, please login at https://www.payumoney.com/ and you will be able to
retrieve your salt and key from the "Account details" tab.

Steps to Integrate

1) Copy the "**Catalog**" folder from the PayuMoney integration kit and merge it with "Catalog" folder of OSCommerce folder on your root directory.(Accessible from your Web Hosting Control Panel, eg Cpanel).

    [In other words, copy the end files/folders in the integration kit downloaded according to the files and folder structure in your OSCommerce module in your root directory]
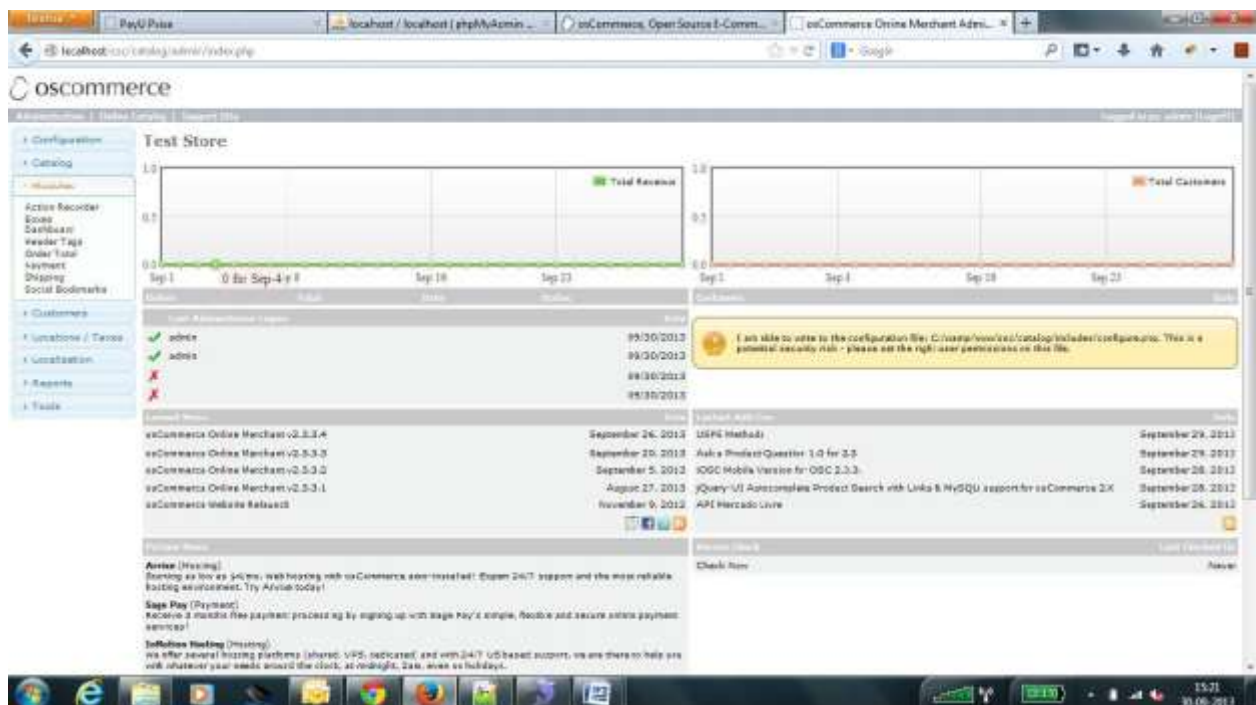

2) Login to your **osCommerce admin panel**.

3) After login, you'll the following page will be displayed to you.

4) From Left hand side panel, select **Modules**

5) Select **Install Module** option:

6) Select **PayU Checkout** from the list.

7) Click on "**Edit**" and fill the details as mentioned below.Enter the **Key**and **salt**.The values of key and salt are available in your Payumoney merchant dashboard.(Note: The Merchant Id shown here is your Key available from the payumoney panel)

8) Click on **Save**.You should now be able to make a transaction.
